**ARGUS RECEIVES FEDERAL GOVERNMENT C.A.G.E. CODE TO PROVIDE SERVICES TO THE U.S. DEPARTMENT OF DEFENSE**

August 15th, 2005/Stuart, FL - ARGUS International Security and Safety Services continues its outstanding tradition of paving the way towards greater opportunity in the Security and Safety field. We are pleased to announce that we have been accepted as a "US Department-of-Defense Federal Contractor" and assigned our Federal Government C.A.G.E. Code.

*"We are absolutely thrilled to have achieved this milestone in our continued quest towards diversification in business operations. After 9/11, most government agencies adjusted the requirements for this designation and made the qualification process substantially more difficult. In this event, we have not only opened the flood-gates for new business opportunities, but we also have acquired a designation which elevates our national and international exposure. Ultimately, this designation and our subsequent acquisition of federal-contracts will help us to expedite our plans to be a Top-5 Security & Safety Services provider" stated CEO Jonathan Snyder.*

ARGUS is in the process of responding to current solicitations for Facility Security; including a \$10.5 million contract at Eglin AFB. *"We are not able to guarantee that any contracts will be awarded, however we can guarantee that we will be pursuing all RFP's as vigorously as we have in other markets";* stated ARGUS CEO.

ARGUS International Security & Safety Services is a division of Platinum Security Group Inc. Govtlogistics, Trackthemdown.com, Competitive Research Associates Inc. and Title Excellence of Florida are also divisions of Platinum Security Group Inc..
