**PLATINUM SECURITY GROUP "CEO" APPOINTED TO BOARD OF DIRECTORS
OF "PALM BEACH" BASED VENTURE CAPITAL FIRM**

December 10, 2003/Fort Lauderdale, FL - Platinum Security Group's CEO, E.J. Snyder, was appointed to the Board of Directors for Palm-Beach based "Natural Energy Exploration and Development Company (NEEDC)", stated NEEDC's President "Athena Roche".

NEEDC is a global venture capital firm that specializes in exploration and asset development activities of alternative-fuels. With net investment assets of \$30+million from mostly private-investors, NEEDC acts as a conduit for their investor-base to locate high-probability fuel-generation sites that may have been overlooked by previous exploration efforts due to financial, technical or political events.

"Mr. Snyder's appointment was due largely to his firms ability to provide Strategic Business Intelligence and background information on potential clients, investors and projects; along with providing guidance into operating in Third-World economies", stated NEEDC's President "Athena Roche".

AISS is the operating division of Platinum Security Group Inc.(PSGI), a privately-held leader in the growing security-related services industry.
